

## International Exchange 2014 – 2015

### LA ROCHELLE

The experience of doing an exchange in a foreign country makes you understand the point of view and the culture of the people who live there; it also gives you the opportunity of meeting people from all around the world and share with them moments that you will never forget.

For me, studying in La Rochelle, France was the best decision I've ever made, it has been the time of my life and the acquired knowledge, academically and personally speaking has been the greatest. It is a city full of history and at the same time represents the real French culture because is a small and old city, with new stories to tell in every corner of its streets.

I realized that every part of the world has something to show us, and it made me appreciate more every single day I've spend here, taking advantage of all the moments that I am living.
