We are the first option to learning to learn

Since 1653 Universidad del Rosario has actively contributed to the political and socioeconomic development of Colombia. We are strongly committed on building knowledge and integral education for successive generations.

A University of the students, for the students and by the students

We graduate valuable citizens who hold a global vision and contribute to a better Colombia. Some of the nation’s outstanding personalities have emerged from our lecture halls, making their work count in the construction and consolidation of the country.

365 years of history and innovation foreseeing a better Colombia

An academic community of over 10,000 Students enrolled

+3,600 Graduate students

+400 International students

Our academic programs hold to a principle of developing research in a specific knowledge area:

4 Faculties 3 Schools 23 Undergraduate programs

66 Graduate Diplomas 2 On-line Graduate Diplomas 23 Masters Programs 5 PhD Programs

We are the first option to learning to learn
The University provides infrastructure and resources for learning, teaching and research with the highest quality standards:

4 Campuses

CRAI Learning Resource Center:

+ 200,000 items of printed and audiovisual bibliographic material.
+ 132,000 available electronic information sources.

An academic system of Health comprising institutions of different healthcare levels.

University Hospital Network
+ Méderi and the Barrios Unidos Hospital.
+ Cardioinfantil Foundation

CENTAURO

High Performance Computing Center, to support research, innovation and teaching.

TICTANK

Innovation and Technology academic unit, based on a dynamic of knowledge generation and integrated by professors from the different Schools.

A high-performance academic community recognized in international rankings

In recognition of our excellence in 2011, the University received the high quality institutional accreditation by the Colombian National Education Ministry, award that only 13 universities hold. Also, 15 university’s undergraduate programs have been granted with high quality accreditation.

- Times Higher Education (THE) Latin America: 36-40 (5th place in Colombia)
- QS Latin America: 46 (5th place in Colombia)
- QS Employability: 5th place in Colombia
- Scimago Institutions Ranking: 607 (4th place in Colombia)
- QS World Universities Ranking: 801-1000
- Institutional Accreditation Of High Quality: 8 Years
- EQQA Institutional Accreditation: Academic and Administrative Excellence
Research is at the heart of everything carried out by Universidad del Rosario’s academic community. This is how we generate an output of suitable knowledge to contribute to the progress of science and regional development, thus standing up to big local and global challenges. The University manages:

- We train professionals who carry out research. From undergraduate to doctoral levels, young people with interest and talent in science can join up with researchers, research groups and projects at our various academic units. The Universidad del Rosario currently has:
  - +770 students working in research seedbed projects
  - 43 research groups
  - 4 research centers
  - 1 top-level cutting-edge research institute
  - 140 research projects begun in 2017
  - 27 internally-funded research projects in 2017 and 2018
  - 1072 members of research groups

We have first-rate lecturers and teaching staff, trained and qualified at prestigious universities and expert in their fields of study.

Our lecturers are a transcendental and decisive element, at the University scholastic life. We have a top performance academic staff, professionals with PhDs, master’s degrees, and graduate diplomas. Our educators boast great experience in imparting knowledge with an international calling.

Strengthening and reflecting on teaching and training processes within a framework of pedagogical innovation, are fundamental aspects at a University that has defined “Learning to learn” as one of its strategic tenets. Within this framework, the University promotes and fosters the development of innovative didactic ideas, proposals that are both flexible and comprehensive, and it matches these to the right knowledge areas and to the right professional projection for each scholastic unit.

Big efforts are steered towards giving students all the tools they need to guarantee a unique and comprehensive training program.

Learning to learn, the key to relevant education
Universidad del Rosario enjoys relations with its surrounding context through its academic and research strengths, as well as its specialist services for businesses, the state, and the community. It has UNESCO interdisciplinary Chairs, as well as international, national, and local partners, allowing for interaction between training, research, the development of networks, and the social channeling of knowledge throughout the country.

One important initiative is the Group for Interdisciplinary Studies on Peace, Conflict and the Post-conflict Period (JANUS), which focuses in an interdisciplinary manner on these issues in Colombia and in other countries around the world.

Research towards the construction of a better country

Universidad del Rosario invests in innovation in all teaching, research, and outreach processes. This is reflected throughout its active teaching approaches, interdisciplinary research, and dynamic governance, all of which enable an auspicious response to huge national and global challenges.

One important initiative is the Group for Interdisciplinary Studies on Peace, Conflict and the Post-conflict Period (JANUS), which focuses in an interdisciplinary manner on these issues in Colombia and in other countries around the world.

More than 500 scientific publications testify to the Universidad del Rosario commitment to peace

Lecturers from all schools and faculties at the University

and its founding inspiration comes from start-up research units, through which it contributes experiences, working alongside different state and private entities, sharing knowledge to place it at the service of the country.

A University with role to play in a worldwide agenda

A University with role to play in a worldwide agenda
We understand that our activities must be developed along ecologically healthy lines, and that they must be socially just and economically viable. We run six environmental management programs for the prevention, mitigation, correction, control, and compensation of impacts affecting environmental, economic, and social aspects.

RSU - A Sustainable University

The Sustainable Development Objectives (SDO) form part of our university agenda, and for this reason we are a Full Regular Member of the Colombian Local Network Board of the United Nations Global Compact.

Universidad del Rosario offers an interdisciplinary portfolio of executive training across more than 600 courses, seminars, and diplomas for Colombia and the world. We work with the country’s leading firms in both the public and private sectors.

No. 2 in the classification of universities based on its green policies and environmental sustainability.

Leading to Excellence at every stage of learning

Continuing Education Programs

Participants from state and private entities, and NGOs, among others.
Within the framework of the University Social Responsibility network, SERES works as an entity bringing personal and professional training opportunities and experiences to members of the university community. Through its voluntary programs and projects for development and inclusion of vulnerable population groups, it reaches: children, older adults, mothers and their children who have been deprived of their liberty during their free time.

Our social commitment to Colombia

From its origins, Universidad del Rosario has been aware of the importance of education as a transformative agent towards achieving a more prosperous country. The University acts accordingly in promoting access to education through grants for academically-excellent and financially-limited young people.

**Sueño Ser Scholarships**

The Sueño Ser Scholarships began 10 years ago, as an initiative of the Higher Student Council.

**We receive donations from**

- **50 Companies**
- **170 Administrative Staff**
- **2,000 Parents, Alumni and University Students**

We annually raise more than **(US$9.4m)**, which go to Excellence Scholarships.

And we ensure financial assistance for **25%** of undergraduate students.

Throughout these past 10 years Universidad del Rosario has awarded **64,999 grants to undergraduate, postgraduate and doctoral students**, distributed as follows:

- **642 Doctoral**
- **20,405 Postgraduates**
- **43,952 Undergraduates**

**Total**: **64,999**

“...from knowledge, talent, experience, and personal, family, and university values”.

Rosarista Institute of Social Action “Rafael Arenas Ángel” - SERES

Within the framework of the University Social Responsibility network, SERES works as an entity bringing personal and professional training opportunities and experiences to members of the university community. School of Human Sciences

Learning by doing, the School of Human Sciences undertakes activities in training, research, and outreach, from an international perspective, respectful of differences, and with an interdisciplinary approach. It offers innovative, high-quality training characterized by dialogue between disciplines and knowledge areas.

Undergraduate programs:
- Anthropology
- Liberal arts in Social Sciences
- Philosophy
- History
- Journalism and Public Opinion
- Sociology

Master programs:
- Master in Philosophy
- Master in Social Studies
- Master in Journalism

The School’s interdisciplinary is reflected in the presence of a curricular span shared across several programs and in the existence of research and seedbed groups of a multidisciplinary nature.

80% of its lecturers have a PhD or postdoctoral studies.

Specialist Centers:
a Multicultural and Multilingual Center, and the Center for the Study of Theology and Religions (CETRE).

Learning by doing, through field trips, practices, and the applied works, the students learn to conjugate what theoretical with the social and labor reality of his field.

19 research seedbeds with 210 students doing formative research.

Research seedbeds with students doing formative research.

Research groups all interdisciplinary (interfaculty and/or interuniversity):
- Identity Studies (ESI)
- Applied Ethics, Labor and Social Responsibility
- Pedagogy of Writing and Language
- Center for Research in Education and TICs
- Logic, Epistemology and Philosophy of Science
- Social Studies of Sciences, Technologies and Professions
School of Economics

One of the top-three Schools in its discipline in Colombia, in terms of academic productivity. Its educational project is characterized by its fostering an analytical and critical atmosphere, boosting research with the aim of strengthening academic training, and its grasp of economic and social realities.

Undergraduate programs: Master programs:

- Economics
- Finance and International Trade
- Master in Economics
- Master in Quantitative Finance
- Master in Economics of Public Policy

Doctorate programs: PhD in Economics

2 UNDERGRADUATE PROGRAMS WITH HIGH-QUALITY ACCREDITATION awarded by the National Council of Accreditation.

All it’s lecturing staff have doctorates from the best universities in the world, and 25% of its lecturers come from abroad.

CURRICULAR FLEXIBILITY THAT IS COMPLEMENTED BY THE ADVANCED TRAINING OFFERED BY US

1 OF THE BEST FINANCE LABORATORIES IN THE COUNTRY 1 EXPERIMENTAL AND BEHAVIORAL ECONOMICS LAB (REBEL), AND THE DATA CENTER.

3 MASTER PROGRAMS 3 PROFESSIONAL DIPLOMAS

67% of the publications of our researchers are in Q1 JOURNALS

67% of the articles published are with at least ONE INTERNATIONAL CO-AUTHOR

ALL OUR STUDENTS CAN ACCESS A DOUBLE DEGREE

Double degree agreements with University of Tilburg and the Toulouse School of Economics.

Student exchange agreements with recognized foreign universities, such as the Carlos III University of Madrid, the University of Paris and The University of Lyon.

TOP-LEVEL RESEARCHERS GROUP WHO DEVELOP SEVERAL LINES OF RESEARCH AS:

- Economics of welfare and equity: labor, health
- Macroeconomics and international economics

- Venezuela
- Political Representation
- Urban Laboratory

Participation in international schemes:
- Model United Nations
- Model Organization of American States
- Debating Society

Participation in international sets:
- Double Degree program with the Institute of Political Studies of Bordeaux in France
- 108 agreements for academic exchanges in 28 countries
- 100 international internship options in more than 40 countries
- Participation in international schemes: Model United Nations, Model Organization of American States, and Debating Society
School of Natural Sciences and Mathematics

A modern and international faculty whose mission is to carry out scientific research and teaching excellence, while aiming to remain a pillar of innovation in science, the environment, industry, and society.

Undergraduate programs:  Doctorate programs:

• Biology  • PhD in Biomedical and Biological Science
• Applied Mathematics and Computer Science

A Faculty with national and international doctoral researchers, and solid collaborations with several top-level international universities.

Colombia’s one of a kind Biology undergraduate degree based on sustainability topics and socio-ecological systems.

A successful Doctorate in Biomedical and Biological Sciences that has already graduated several doctors and produced dozens of publications in international journals.

The MACC department carries out top-level research into diverse areas of Applied Mathematics and Computer Science. Technology transfer projects are promoted with companies in the productive sector and public institutions.

Academic exchange agreements with:
• the Catholic University of Leuven in Belgium
• the Royal Botanic Garden Edinburgh in Scotland
• the Charles III University in Spain
• the University of Georgia in the USA
• the Smithsonian Tropical Research Institute (Panama)

State-of-the-art didactics and research laboratories

Research groups in several different areas of Biology and Mathematics:

• Medical Sciences Group
• Group of Statistics, applications and their mathematical foundations
• Group of Functional and Ecosystem Ecology (EFE)
• Evolutionary genetics, phylogeography and ecology of Neotropical biodiversity
• Microbiological Research Group-UR (GIMUR)
• Applied Mathematics and Computation Group MACC
• NanoTech Group
• Natural History of Tropical Plants

An experimental field station, “The José Celestino Mutis” which support research of the natural sciences and the study of the interaction between man and his environment.
Founded in 1653, the School of Law is the oldest and most important of its kind in Colombia. Its age, continuity, and character—all unique—have allowed it to shine as a training body for prominent professionals and be the seal of the country’s great legal and political transformations.

Undergraduate programs: Jurisprudence

Doctorate programs: PhD in Law

Master programs:

- Master in Law
- Master in Administrative Law
- Master of Law and Environmental Management

Observatories and a Legal Clinic:

- Legislative Observatory
- Opinion Observatory
- Public Actions Group (GAP)

RESEARCH GROUPS:
